## FROM THE PRINCIPAL'S DESK

Dear Readers,

A new journey begins with a new academic session. Many challenges come in the way. But in the Department of Education, Patna Women's College, we believe that our trainees have the potential to turn those challenges into opportunities. Under the able guidance of the faculty members, trainees not only learn the finest details of teaching, but also equip themselves with all necessary skills required for this noble profession. They participate in curricular, co-curricular, cultural, sports and research activities to enhance their professional competence.

Throughout the year, they remain engaged in numerous workshops, seminars, symposia and other such productive activities to keep themselves up-to-date and prepared for the present knowledge of society. The trainees make their presence felt even outside the campus. They win prizes at Inter-college and University level programmes and competitions. These are a few reasons for which the trainees get lucrative placement offers even before completing the B.Ed. Programme.

I am sure wherever they go, they will carry the rich values of Patna Women's College and give us innumerable moments to feel proud.
